Subject : European Directive 2002/95/CE and 2002/96/CE concerning the restriction of harmful waste from electrical and electronic equipment.

Dear Customer,

The European Parliament voted in January 2003 to apply Directives 2002/95/CE and 2002/96/CE concerning the restriction of hazardous substances (RoHS) such as:

- Cadmium [Cd]
- Mercury [Mg]
- Hexavalent Chromium [CR(VI)]
- Polybrominated Diphenyl [PBD]
- Polybrominated Diphenyl Ether [PBDEs]
- Lead [Pb]

ECOFIT (including ETRI Division), in wishing to respect the environment, has taken steps to ensure that compliance is reached as soon as possible.

We have therefore instructed our various Departments (from R&D dealing with component selection, to Purchasing dealing with component sourcing) to reach compliance as soon as possible, and at the latest to achieve full compliance by 1 July 2006.

We are pleased to join herewith the list of our products already complying with the Directive in its format dated 23 November 2004:

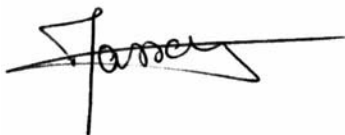

- | | |
|--------------|--|
| - Lead | Homogeneous distribution 0.1% by weight |
| - Mercury | Homogeneous distribution 0.1% by weight |
| - Cadmium | Homogeneous distribution 0.01% by weight |
| - Chromium 6 | Homogeneous distribution 0.1% by weight |
| - PBB & PBDE | Homogeneous distribution 0.1% by weight |

We remain at your disposal for any further information required to complete your records. For example with a specific certificate for any particular product if required.

You will also find herewith the list of the products which, at today's date, do not comply with the directive. We have launched the necessary actions to have 2 versions of these products, one complying and the other not complying with the directive. Indeed, as we still have many applications where non RoHS compliant products are expressly required, we must continue to offer them in our range. Our sub-contractors however cannot commit yet to a firm date of achievement of the RoHS compliant components before July 2006. We shall therefore contact you as soon as possible with the relevant date.

Yours faithfully,

Céline Masson
